

Hobs

■ Gas hobs

This section includes all built-in hobs with two, three or four burners, with or without grill. They can be fixed from the top or from underneath.

Domestic hobs

Hobs designed for mobile homes or fixed locations. Different from the RV hobs, they can be powered by methane or electricity.

■ Piani Cottura a Gas

Sono compresi in questa sezione tutti quei piani da incasso a due, tre o quattro fuochi con o senza grill; sono inoltre caratterizzati dalla possibilità di essere fissati da sopra o da sotto.

Piani Cottura Domestici

Sono inoltre inseriti i piani per le case mobili o locazioni fisse che hanno caratteristiche diverse rispetto ai classici piani cottura; sono disponibili infatti con alimentazione sia gas metano che ad energia elettrica.

■ Plans de cuisson à gaz

Tous les plans de cuisson encastrés dans le meuble à deux, trois ou quatre feux avec grill ou sans grill font partie de cette gamme; de plus il y a la possibilité de monter ces plans avec des fixation dessus ou dessous.

Plans de cuisson domestiques

Cette gamme comprend également les plans pour les maisons mobiles ou locations fixes qui ont des caractéristiques différentes par rapport aux plans de cuisson des V.D.L. En effet, ils sont disponibles aussi bien avec alimentation au gaz qu'à l'énergie électrique.

■ Einbaugaskocher

In diesem Kapitel finden Sie alle zwei-, drei- oder vier-flammigen Einbaugaskocher mit und ohne Grill. Auch diese Kocher werden wahlweise von oben oder unsichtbar von unten befestigt.

Haushaltskocher

Weiterhin umfaßt dieser Teil Artikel für Mobilheime bzw. Häuser und Wohnungen, die mit besonderen Kocher ausgerüstet werden müssen. Einige dieser Kocher werden mit Strom und andere mit Methangas betrieben.
